American Safety Paper

Manufacturing Company of N. Y.

Capital, $500,000.

A. Newton, President. Office, 70 Wall-st.

A Perfect Security against all attempts at Fraud or Counterfeiting on Paper—To Prevent Photographic and Amataric Counterfeits, Alterations, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GOSNS, a celebrated chemist and officer of the British Army. It is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U.S. Mint Mr. Ingman of the New York Clearing House, and Meade Brothers, extensive and skilful photographers, 293 Broadway, N. Y.

The latter say that no limitation can be made on a check or bank note protected by the Safety Paper.

Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bank Bills and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

Circulars and Agreements, 40 cts. a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

The Southern climate is its excellent, and much superior to any other; as the moistness of the climate does not destroy it. The properties inserted in the pulp being a preventive. To all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, without the ink and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall-street, New York.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.—RIPESMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are found upon each wrapper, and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 167 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 6 to 8 o'clock P.M. in the evening, (Sundays excepted.)

TRIESMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early indiscretion, &c.; all physical impediments to the marriage state, are promptly removed before its influence, thus rendering it one invaluable to those entering the marriage state.

TRIESMAR No. 2—Entirely eradicates all traces of those disorders which, copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which, all the Sarsaparilla in the world cannot remove.

TRIESMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in 10 cases and divided in separate doses, or adapted to any constitution.*

Sold by Walpeah Lallemant, Rose, Hegeman, & Co. Price $5 each, or four cases in one for $20, which saves $3; and in 27 boxes, whereby there is a saving of $9.

Special arrangements have been made with the various Express companies, for nine-dollar cases of the Triesmar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, accurately packed, and addressed according to the instructions of the writer. This securing to the public genuine Europian preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases contain as usual, but not free of carriage.

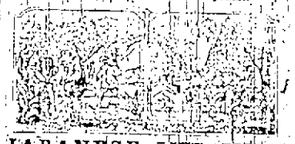
GRINDLE'S
ANCIENT AND CELEBRATED



JAPANESE LIFE PILLS.

NATURE'S OWN REMEDY!

A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Chronic Diarrhœa, Fever and Ague, Costiveness, Piles, Dysentery, and Irregularities, Suppression of the Menses, Nervous Debility, &c., and a sure preventive to

PULMONIC AFFECTIONS.

We offer the ANCIENT JAPANESE LIFE PILLS on almost extensive scale, all we have stated them in the worst forms of disease, and after having been urged to do so by eminent physicians, who have tried them to their satisfaction. Performing cures where every other remedy had failed, we feel it our solemn duty to spread the glad intelligence to every family of the globe. *They purge the system thoroughly of all corrupt humors, penetrate and purify the blood, and the impure, putrescent secretions are replaced with healthy blood. Parts that were ever weeping with sickness are restored to a healthy, vigorous action, and disease eradicated to stay away. Leaving the system in a vigorous condition, and has predisposed to contract disease in any climate, of toddler or Aged.* Possessing such powers to cure, no family should be without it, as disease must be inevitably driven away. We can read it in the now glowing features of the once pale and prostrated victim; we can realize in the friendly grasp of the father's hand, and in the mother's warm tears of joy, as they behold their darling child snatched from the clutches of death by their powerful agency; we can read it in the young man's gayety, and in the maiden's vigor and "God bless you," we can read it in the husband's and wife's warm smile, and in the children's prattle; we can read it away up upon the bosom of the ocean, in the midst of misery tossed and imbecilated system of the poor mariner. Yes, and we sometimes, fancy we almost read it far, far up in the blue canopy of heaven, in words of living fire —DISEASE, YOU MUST SURRENDER—THIS REMEDY COMPELS.

These ANCIENT PILLS are also an invaluable remedy for females suffering from suppression of the menses, the critical to make declines and female weaknesses, and the terrible diseases that attack children are quickly banished by their healing qualities.

The PILLS are sent by mail, from the Proprietor only, on receipt of price. The postage in the United States, is for over 3000 miles, fifteen cents on five boxes, which must be inclosed in money or stamps, or five boxes for $1. Where no agent in your place, read to us by all letters.

LINCOLN'S
WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IT is not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet, and dried, it soon becomes hard and stiff, and cracks—but when it is water-proof this is remedied. By the application of this preservative, it remains soft, as a chemical prevents its water.

I have been engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation of such powerful harmonious with the waterproof properties which when brushed in, I find will entirely make leather water-proof, but likewise softens the leather, and it will.

Positively wear it two as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during the time. I can therefore in all confidence recommend it to the public as the best article in the market.

The hunker papers here at the North find themselves in a ludicrous state of perplexity when commenting upon the Kansas election. They want to claim the result as a democratic victory, and are determined to do so, whoever may succeed in having control of the Legislature. True, the Free State Republican party elected a large majority of the members, and they will have their seats if the honest vote of the people is allowed to prevail, but the pro-slavery party—the "National Democracy" appears determined to cheat them out of it by such returns as 1000 majority from Johnson County, where there are but four hundred legal voters.

The first report was that the Free State men, the Republican party as it is called in the Territory itself—had carried the election in every branch. The democratic organs here regarded the case as called it a "democratic victory." Pretty soon the Southern organs in Missouri said the first reports were wrong—that the "National Democracy" had carried the election *against* the Free State party—and they made out their case by claiming the election district composed of Douglas County and the County of Johnson. Whereupon the northern democratic organs shouted victory louder than they did before. They perceive however, that there is a little discrepancy in the matter, and are now busily engaged at straightening it out. And this is the way they do it. They say half the democrats voted with the Republicans and half against them. So it is to be a democratic victory anyway. The pro-slavery party has triumphed, *that* is the democratic party—if it has got kicked, then it is the democratic party! As to the democrats voting with the Republican party, however,—they are just such democrats as have voted and are voting with the Republican party in Maine.... They will, accordingly, just so.

BUCHANAN SCORNING THE PEOPLE'S WORKS.—The New York Tribune makes the following just comments upon the sneer, or the intention of the President to stop the work upon the various public buildings:

It is reported from Washington that President Buchanan intends to stop all work and to dismiss the workmen employed upon the various Custom Houses and other public buildings in the process of erection. Not only is economy the part of the Government, a good thing in general—yet the Government in this matter has a duty to others as well as to itself, and we would well wish that its representatives at the different ports fell on other than the workingmen. How are our laboring population to live hereafter, to pay for the stoppage of work? and who can find the means to go on if not the government of the United States? Surely, it is time for those who, in many private undertakings are obliged to discuss the labors by their effects, through absolute inability to find means to pay them, it is the duty of the Government rather to do work for some of the idle hands than to aggravate the evil by adding to the number. Ellis' stoppage of work is one of the greatest evils of the present crisis. It is a two-edged sword, which is death to every wound. By taking away all capacity on the part of the dismissed laborers to purchase, it puts a serious check on the ordinary flow of trade, it takes away from many merchants upon whom our business men look with to pay their debts. In the opinion of other governments, in times of public distress like this, to set on foot new public works for the very purpose of finding occupation for the unemployed.

A private letter from Falmouth, Another Kingdom of this city, but now in Minnesota, states that the Republicans carried St. Anthony by 140 majority, and Minneapolis by 200 majority, and that it was considered certain that the Republicans had elected their State ticket. This however is rendered doubtful by later intelligence, which states that in some of the rural counties the democrats had registered extensively to bogus voting and colonization, and obtained majorities in the same way that they recently cut them into Missouri border counties of Kansas.

The London Leather Manufacturer says a new trick of the book trade in England. It says Whittaker, bill forms of putting boy has been exchanged for a page is omitted. The volume formerly called "The War in the Punjab," is now called "The Bengal Mutiny." Misery, in fact, appealing interest, re-appears as Woe! Woe! a work which should be in every young lady's hands. It will be out next year as Runaway, or the story of an Anguished Heart.

News have recently arrived in Boston that a Mr. Crosby, the captain of a Boston ship, the Waverly, engaged in the coolie trade, has been tried at Manilla on the charge of causing the death of a large number of his coolie passengers, and has been sentenced to six years of penal servitude, the chief mate being condemned to a similar punishment for four years.

LITERAL SUBSCRIPTIONS.—About $30,000 has been subscribed among the Methodists in Boston to aid in rebuilding the Wesleyan Seminary, which was burned a week or two ago. The sum needed is $80,000, and if the denomination elsewhere do as well as they have in Boston it will soon be made up.

FAILURES.—The Independent of Thursday reports the failures the past week. Of these 30 are in New York city, and 14 in Boston. There are none reported from Maine.

LOCAL AND MAINE NEWS.

LOVES AND FAIR.—A handsome gothic house recently appeared on the new F. W. Baptist Church on Exeter street, under the superintendence of Messrs. Pegg & Benson. It is a credit to the Society and builders, and an ornament to the city. The motto of the Society has always been, "Pay as you go." This is as it should be. It is fortunate for them that they have no large debts at the money crisis. We understand, however, that they have no paid entirely for the spire, but propose to have a Love-feast Thursday evening, (29th) to raise funds to pay up for what has been expended this season. We hope our ladies will send in on Thursday, articles for sale and eatables for the tables, in order to assist the ladies of the Society.

They ought to have a full house in the evening, and we trust our citizens will generally attend.

MR. CLOYE'S lecture for last evening was postponed on account of the rain. The lecture will be delivered on Friday evening, at same time and place.

OUR readers will notice by an advertisement of Mr. Barlow, that Dr. J. C. Ayer, the celebrated Chemist who resides in Lowell, Mass., is not in this city. Dr. J. C. Ayer, we believe, does not claim to be a physician, but is satisfied with the fame that his Cherry Pectoral and Cathartic Pills are every day winning for him.

THE burning fluid accident on board the schr. Pool, of Deer Isle, which we noticed briefly on Saturday, took place on Friday afternoon at the steamer Webster's wharf in this city. The captain (Haskell, not Haskins as reported), and two or three of the men, had a very narrow escape with their lives. It is now stated that there were three gallons of fluid in a demijohn placed on a shelf above, and near the stove in the cabin—and that the demijohn burst, throwing the fragments and most of the fluid upon the stove. The cabin was in a blaze in an instant. The captain, on the impulse of the moment, sprang towards the stove to throw off the remains of the demijohn and was very badly burned on one of his arms and on the side of his face and head. He was conveyed to his home and attended by Dr. Mason.—The mate rushed out of the cabin at once, but two of them were somewhat burned.

THE SECOND, if it occurred as reported, shows the burning fluid liable to explode without the immediate contact of fire, and simply by being kept in a warm place. In such positions, as gas from which appears to have considerable explosive force. If this is the fact, it follows that it is safer to burn the article in metal lamps than in glass ones.

THE town of Exeter, in Penobscot county, is almost exclusively a farming town, and a recent examination and estimate of its value by competent gentlemen, has led them to the declaration that it is worth now twenty times as much as it was twenty years ago. It will hardly do to say that farming in Maine is not a good business.—*Kenduskeag Journal.*

THE Lewiston Journal says that a large majority of the Irish laboring people of that town are well reported for the Ford times of the coming winter—they have been saving and provident of their earnings while employment was plenty and wages high. During one or two days of last week, there were many applications for specie at the Lewiston banks, and the Journal says they were mostly from the Irish, who drawn out amounts of bills on the various banks from two to fifteen hundred dollars in specie.

ROMNEY, A man named Winthrop, who has been engaged at work for Mr. Lamb, a brickmaker in Westbrook, started on foot, on Thursday afternoon for his home in Windham. Early the next evening he was found lying in the road, in a state of insensibility, about half a mile beyond Duck Pond. He was taken up and found to have received several severe wounds upon the head, and to have been robbed of $160 and a note of the same amount, which were known to have been in his pocket-book. He remained in an unconscious condition when last heard from by our informant, on Saturday. No clue has been obtained to the perpetrators of the outrage.—*Portland Adv.*

A NEW DISCOVERY.—Dr. Ayer, by the use of his improved silver Pharyngeal Tracheal and Nasal Syringes, is enabled to reach (which has never before been done,) and thoroughly cleanse the membranaceous coatings of the head and throat, sweeping away all purulent matter that may have formed, immediately allaying all inflammation, and effectually curing Catarrh Bronchitis, Laryngitis, which frequently produce loss of voice, &c.

THE last steamer from Boston carried out 50 specie, while the Europa brings a large amount, and $400,000 are expected by the Persia. The Calhoun, at New Orleans on the 21st inst., also brought half a million in specie from Havana. This shows we shall have gold enough.

IT now turns out by actual experiment that the Blue Ridge Tunnel is too small to admit the passage of a single car, much less a full train! And it is variously estimated by knowing ones that it will take from at least three to possibly six teen months before the defect can be remedied.

"GO, and do likewise."

A friend of the Republican cause in Trenton, New Jersey, has sent us, since we commenced the publication of the Republic, eighteen subscribers to the semi-weekly, and encourages us to hope for more when money becomes easier of access. If the Republic had five hundred such friends, (why may it not have five thousand?) its hands would be strengthened for the good work before it.

TO the reader, we say, *go thou, and do likewise.* We ought to have a club in every township from Maine to Texas. A Republican Union, and National journal, like the Republic, published at the Capitol, in opposition to a minority Administration, ought to reckon its subscribers by tens of thousands, and its readers by hundreds of thousands.—*Washington Republic.*

(We trust that this injunction to "go and do likewise" will be duly heeded by the Republicans of Maine. This is Mr. Weston's native State, and we therefore feel a special pride in the success of his enterprise, in addition to the political and party interest we have in it. It is entirely need less to say that the Republic is conducted with consummate ability, and that whoever subscribes to it will get far more than the worth of his money. The following are the terms of subscription:

Will not the earnest and liberty-loving Republicans throughout the State take hold of the matter, procure a generous list of subscribers, and thus aid in sustaining at the Federal Capital, a journal which will prove an able and honorable exponent of the great principles of our party?—*Portland Adv.*

History of the East India Company.

In the same year that Chauvin undertook to colonize Canada under a patent from the King of France, and eleven years after the assignment of Raleigh's Virginia patent to Thomas Smith, of London, Queen Elizabeth chartered "The Governor and Company of Merchants trading to the East Indies," and Thomas Smith, (Raleigh's assignee) was elected the first chairman. This was the beginning of the modern East India Company—the sole survivor, with the Hudson's Bay Company, of the numerous trading corporations of that enterprising age.

For a full century and a half the "Governor and Company of Merchants" were faithful to their origin—they were traders, and nothing more. Necessity occasionally compelled them to thrash the Dutch and Portuguese; but here were accidental deviations from their beaten track. When Sir Thomas Roe waited upon the Grand Mogul at Delhi, he protested that all his countrymen wanted was liberty of trade; if this were granted the Emperor would have no more faithful subjects than they. They did not own a foot of land in India for over a hundred years after their incorporation. By fair or by foul means the stockholders made money, and aroused opposition. Pressure was brought to bear on the Government; a rival Company was chartered in defiance of the monopoly, and strenuous efforts were made to have the charter of the original association revoked. These efforts were met by copious corruption on the part of the old Company. Government and rivals were bought up together, the old charter was enlarged, and the rival Company merged in the successful association. Within a short period thereafter, a purchase of twenty square miles of land was made, or warehouses and Company's servants at Fort William, Calcutta; and about the same time territorial establishments were erected at Bombay and Madras. These were the nucleus around which the Company's dominions have grown up, and the greatest sovereignty in the world—the Chinese Empire alone excepted—has been founded.

The beginning of the greatness of the Company grew out of the efforts of the French. Their attempts to priest Madras and Bombay from the English established British supremacy in Southern India, and developed the genius of Clive. What they began, Surajah Dowlah continued. He was Viceroy of Bengal, nominally of feudal retainer of the Emperor of Delhi.—He forbade the English warehouses at Calcutta and Fort William were worth plundering. He plundered them accordingly. Not content with this, he suffered a hundred and twenty-three persons of English birth to be stifled to death in the Black Hole. For this, Clive—hastening from the south with 3000 men—met and beat him in the grove of Plassy, just one hundred years ago; and, following up that victory, gradually broke the power of the Viceroy, till that last of the race was glad to accept a hereditary pension from the Company, and the Emperor made over to Clive, as Governor, the absolute dominion of Bengal. This was in 1765.

Two men built up the British empire in India—Clive and Hastings. The former, as we have seen, commenced his career by saving the British trading-posts from French conquest, and ended it by founding the British sovereignty of Bengal. Between Clive and Hastings there was an interval of nine six years—during which time the history of the Company may be briefly described as a combination of corruption, rapine, and robbery by the Company's servants in India and peculiary embarrassment and peril in England.—Hastings certainly was no model of probity—a Nabob of the Nabobs; but he suppressed much irregular pilfering by the Company's subordinate officials; and, by an exemplary spoliation in Bengal, by lending out his troops for the conquest of the Rohillas, by the conquest of Benares, and, lastly, by the plunder of the Princesses of Oude, he contrived to support an immense establishment, civil and military, in Hindostan, to secure Madras from the encroachments of Hyder Ali, and, above all, to pay to the proprietors of East India stock a regular dividend of 10 to 12 per cent.

Since his day the progress of the Company has been steadily onward in the work of conquest. It would be tedious to enumerate successively the various territories and states which have been annexed or made tributary, let it suffice to say that the whole peninsula, from the Himalayas to Cape Comorin, has been virtually placed under their dominion.

On the other hand, the East India Company has ceased to be a trading corporation. In 1814, the old charter was modified; the trade of India was thrown open, and the Company's monopoly restricted to the tea trade. This charter lasted twenty years, during which the commercial transactions of the Company regularly declined, while its political importance increased in proportion to the extent of territory it added to the British dominions. In 1833, in anticipation of the expiration of the charter another one was passed by the British Parliament. By this the trading monopolies of the Company were forever abolished, and its powers, and even its property, were declared to be in the Government of England, in trust for which they were to be held by the Company. The only consideration which was left to the stockholders was a Government guarantee of a dividend of 10½ per cent. on its stock.—At this, or very similar terms, the charter was renewed—for an indefinite period—at its expiration in 1854.

IT will thus be perceived at a glance that, to all practical intents and purposes, the East India Company is a myth, and that the real governor of Hindostan is the British Ministry. The Ministry or Cabinet, which rules England, also rules India, though under a different title—that of the Board of Control.

The Board of Directors of the Company is still kept up. But, in reality, the only substantial part of its functions is the distribution of Indian patronage. One of the committees of the Board pleads curiously, if entitled the Secret Committee, in point of fact the Secret Committee is, like the Court of Directors a mere show.

The object of the English Government in keeping up the nominal Board of Directors is probably to preserve a scape-goat for their Indian Blunders. The most obvious effect of the duplex arrangement is an immense complication of business details. With the exception of the important matters which are decided by the Board of Control, and not communicated to the Board of Directors, all dispatches by both the Indian and the Home government are copied and re-copied, read and buzzed in Bureau to Bureau, and from committee to committee, in true Circumlocution Office style. Some of these dispatches are of fabulous length. A financial dispatch of 1855 contained 13,611 folios; one from the revenue department, 10,202 pages; and another from the same department, in 1845, the enormous number of 40,000 pages. Of such dispatches, between 2000 and 3000 are exchanged annually at the India House; so that one learns without surprise that the dispatches from 1793 to 1813 comprise 2004 great folio volumes, and those from 1814 to 1829, 12,414. Just fancy such dispatches passing from committee to committee and from board to board and an idea may be formed of the manner in which business must be transacted by such a method.

The fortunate individuals who own East India stock vary from 2000 to 4000 in number. The aggregate amount of the stock—which was £30,000 in 1600—is now £6,000,000.

THE New York Police Commissioners.—The N.Y. Tribune of Friday says: "Mayor Wood took everybody by surprise yesterday, by nominating Simeon Draper to fill the vacancy in the Police Commission caused by Mr Draper's own resignation. We suppose the wished to astonish the public and make every body talk about him with admiration. It was a skilful bit of political strategy. Some person supposed it was a great deal more."

The extensive practice which has attended the practice of Dr. Ayer during the later years of his experience, has been so marked as to call forth the highest encomiums from the medical profession generally, and many are now successfully using the remedies and instruments which he has recently discovered, and of which he makes no secret; and, as the *Medical Journal* says, "though Dr Ayer's remedies and system of practice may in time be improved upon, still, we can scarcely see how it is possible, and believe that he will long remain in the envy able position he has attained of being the most successful physician of the age in all pulmonary diseases."

Dr. Ayer will be found in town for a few days, for the purpose of treating pulmonary complaints, and diseases arising from them, thus furnishing to all an opportunity which may never again occur, of consulting the most experienced physician (in these complaints) in the country without leaving home.

Father! who scarcely ye hasten'd the flushed cheek that speaks of death, Awake! Darkness and terror chase the falling form of an only son, despair not, and may be, even as your mind seek it, are fit to be taken. Reader, (your son or daughter, are you not) that your companion or children are sick, and the doctor may not yet awake to a sad consciousness, when it is too late. Would it not be well to have an examination, and thus know the worst and provide for it?

267 South st. Dear Sirs, For the last ten years I have been a great sufferer from Asthma, and an affection of the bronchial tubes and lungs, and until placing myself under your care, I had found no relief from the use of medicine. From the prescriptions and treatment of your skillful physicians, by the use of your inhaling apparatus, and following your directions, I at once experienced relief, and from the use of your laryngeal syringe and inhaling prescriptions I am happy to say I am entirely relieved, and have regained the use of my voice while I feel that I am indebted to you for the prolongation of my life and ability to prosecute my profession. Dr. AYER—*Dear Sir*: I write to inform you that my wife's health is really restored; her cough has left her, and her night sweats have stopped. She is gaining in flesh, and looking health and strength, and I think she will weigh a pounder more than when she came under your care.

Dr. AYER—*Sir*: It is with the greatest pleasure and gratitude that I advise the patient to avail himself of your care. Three months ago my friends wept over me, as one already long for as a shadow, I was a skeleton, and took to lying a skeleton in bed, shaking with a cough that racked me to pieces at every breath. I gave up and about my business. By chance, direct me to again, thank God, for the cure in your case practically my case may be of use to you it was almost imported to you. Your humble servant,

Dr. AYER—*Dear Sir*: I am pleased to inform you, with pleasure, that I have derived great benefit from your treatment and excellent medicines. Prostration and cough are considerably relieved. My bones, so long sharp and painful, are beginning to be covered with a goodly share of flesh; my appetite is excellent. I am improved in short, I am a well man. Though not completely convalescent, I am to my thoughts, and hope still to be so ring. Consider your treatment a long time and have used a large number of bottles, eight sweating fever, ulcers and diarrhœa, and I am really thankful that I have fallen into such a worthy one.

Yours with respect, G. W. PAYNE, Pastor of Episcopal Church.

NEW YORK, Nov. 13, 1857.

Dr. AYER—*Dear Sir*: At the earnest request of my friend, Mr. Bates, of Storm's Cove, L. I., in order to test the effects of your Pectoral on consumptives, I selected four cases, of the worst kind, and used as far as I was able, your remedies. One case of Nasal Catarrh, complicated with bilious disease, of long standing. Speech from nose exceedingly offensive, and expectoration very copious. Effects: a loss in strength and flesh, with loss of appetite, and cough, and symptoms of decline. The results was as follows: in one week, all symptoms of the disease subsided with the fall of the palate. The phlegm was exhausted with your pharyngeal syringe, and the throat was left with your nasal instrument in the same condition. In two weeks and one week more, the cough, the sixth case, was cured of all disease, and in about four hours all inflammation of the membranous coating of the organs had disappeared, and the hair wonderfully restored. The fifth case, a child, was relieved in natural colors; the appetite, and all symptoms of disease came back, and at the expiration of the week the patient was discharged as well.

NEWTON, Mashonda, June 6, 1855.

Dear Father:—Well, you kindly say to Mr. Davis that Mrs. Hibbard and myself and babe all might add will come but will not, feel very grateful for the box of Pain Killer he gave us when we left our native land for Burmah. I have used it for coughs, colds, cholic, internal pains, burns, cuts, bruises, sore throat, &c., and for the sting of scorpions with success. The only remedy against the stomach which Mrs. Hibbard has had in Burmah was instantly relieved by the Pain Killer. We always keep it where we can put our hands on it in the dark, if necessary. Although I took Mr. Nesbit's box when I returned to America, yet it is all gone but three or four bottles, and that would have been long ago sold if I not refused to part with it. The Karens are beginning to learn its value, and call for it, but I have to deny them, except in cases, for we could not think of being without it.

We say to the above notice because we have heard of several instances lately, before customers have been greatly deceived, and of which he makes no secret; and, as the *Medical Journal* says, "though Dr Ayer's remedies and system of practice may in time be improved upon, still, we can scarcely see how it is possible, and believe that he will long remain in the envy able position he has attained of being the most successful physician of the age in all pulmonary diseases."

Dr. Ayer will be found in town for a few days, for the purpose of treating pulmonary complaints, and diseases arising from them, thus furnishing to all an opportunity which may never again occur, of consulting the most experienced physician (in these complaints) in the country without leaving home.

Father! who scarcely ye hasten'd the flushed cheek that speaks of death, Awake! Darkness and terror chase the falling form of an only son, despair not, and may be, even as your mind seek it are fit to be taken. Reader, (your son or daughter, are you not) that your companion or children are sick, and the doctor may not yet awake to a sad consciousness, when it is too late. Would it not be well to have an examination, and thus know the worst and provide for it?

267 South st. Dear Sirs, For the last ten years I have been a great sufferer from Asthma, and an affection of the bronchial tubes and lungs, and until placing myself under your care, I had found no relief from the use of medicine. From the prescriptions and treatment of your skillful physicians, by the use of your inhaling apparatus, and following your directions, I at once experienced relief, and from the use of your laryngeal syringe and inhaling prescriptions I am happy to say I am entirely relieved, and have regained the use of my voice while I feel that I am indebted to you for the prolongation of my life and ability to prosecute my profession. CHAS. TAPPAN.

Professor of Music and Languages.

MARYLEBONE, 10th May, 1857.

Dr. AYER—*Dear Sir*: I write to inform you that my wife's health is really restored; her cough has left her, and her night sweats have stopped. She is gaining in flesh, and looking health and strength, and I think she will weigh a pounder more than when she came under your care.

Yours gratefully, JOHN SNOW.

Master of ship Sea-Bird.

BOSTON, Mass., Sept. 10, 1857.

Dr. AYER—*Sir*: It is with the greatest pleasure and gratitude that I advise the patient to avail himself of your care. Three months ago my friends wept over me, as one already long for as a shadow, I was a skeleton, and took to lying a skeleton in bed, shaking with a cough that racked me to pieces at every breath. I gave up and about my business. By chance, direct me to again, thank God, for the cure in your case practically my case may be of use to you it was almost imported to you. Your humble servant,

G. M. SMITH, Counsellor and Attorney at Law.

CARTHAGE, Ind., Oct., 1857.

Dr. AYER—*Dear Sir*: I am pleased to inform you, with pleasure, that I have derived great benefit from your treatment and excellent medicines. Prostration and cough are considerably relieved. My bones, so long sharp and painful, are beginning to be covered with a goodly share of flesh; my appetite is excellent. I am improved in short, I am a well man. Though not completely convalescent, I am to my thoughts, and hope still to be so ring. Consider your treatment a long time and have used a large number of bottles, eight sweating fever, ulcers and diarrhœa, and I am really thankful that I have fallen into such a worthy one.

Yours with respect, G. W. PAYNE, Pastor of Episcopal Church.

NEW YORK, Nov. 13, 1857.

Dr. AYER—*Dear Sir*: At the earnest request of my friend, Mr. Bates, of Storm's Cove, L. I., in order to test the effects of your Pectoral on consumptives, I selected four cases, of the worst kind, and used as far as I was able, your remedies. One case of Nasal Catarrh, complicated with bilious disease, of long standing. Speech from nose exceedingly offensive, and expectoration very copious. Effects: a loss in strength and flesh, with loss of appetite, and cough, and symptoms of decline. The results was as follows: in one week, all symptoms of the disease subsided with the fall of the palate. The phlegm was exhausted with your pharyngeal syringe, and the throat was left with your nasal instrument in the same condition. In two weeks and one week more, the cough, the sixth case, was cured of all disease, and in about four hours all inflammation of the membranous coating of the organs had disappeared, and the hair wonderfully restored. The fifth case, a child, was relieved in natural colors; the appetite, and all sympt

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Medical Work, the Royal College of Surgeons (1827,) Licentiate of the Hall (1826,) and 20 Years Medical Referee, &c.

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms; as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Vertical Impotency, and all obstructions arising from early indiscretion.

This first great Remedy, discovered by the world renowned Dr. Culverwell, a London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the full confidence that its extraordinary virtues, its salutary effects in almost instantly forcing it will doubtless at once supercede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect remedy now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in introducing this article to the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a much guarantee that its employment by one person would, through recommendation, result in an eventual sale to many.

Dr. Culverwell's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded by *mail*, free of postage to any part of the country. Address, Messrs. PHILBRICK & CO., Druggists and Apothecaries, 158 Grand-St. New York, Sole Agents for the United States and Canada.

The most celebrated Medicine in the World. *Recommended by the principal Physicians in all our Cities, and by all who become acquainted with their merits throughout the world.*

There are living witnesses, in almost every town, village and hamlet throughout the country, who unhesitatingly say, DR. SMITH'S SUGAR COATED PILLS have saved my life.

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested, and many eminent Physicians in the United States use them in their practice.

Dr. J. M. SCHRYEVANT, of Lowville, N. Y., a practical physician, says: "I make use of the Sugar Coated Improved Indian Vegetable Pills, as an excellent medicine, and use them in my practice."

Dr. M. VICAR, of Boonville, Oneida Co., N. Y., says: "Say to your Agents, I consider them an excellent Pill, and use them in my practice."

If the Blood becomes impure, it is carried to all parts of the natural drains of the system, viz: of the bowels—the lungs, kidneys, and skin. The blood and intestines must relieve themselves of all their worn out particles and poisoning humors, which must go through the channels that nature has designed.

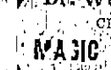
AMERICAN HOUSE

BOSTON.

Re-establishment of the old plan of management.



LEWIS RICE, Proprietor, respectfully announces that he has resumed the old *plan* of management, as it existed before the recent alteration. That of the European system *in this Hotel*, proves that although the advantages, on a great, yet the plan is better adapted for the *wealthier class* of Hotels.

The accommodations and conveniences of the House are unsurpassed, and the recent improvements and alterations, for the comfort of guests, leave nothing to be desired.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—FOR—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Rheumatism, Cutaneous Eruptions, Chronic Debility, and all diseases depending on an impure state of the blood.

THIS Wonderful Remedy has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world, for *Pulmonary Complaints*, from Maine to the most remote dwellings of Oregon, or wherever Consumption is known. It finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it *does cure* consumption, and they now use it in their practice as a standard and safe remedy.

The Compound expands itself in building up a system, that under the influence of various diseases, hardening, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, arrest the diseased fluids, and arrest the deposit of tubercle in the lungs, and it is as sure as it is *certain* in its action.

Some poor sufferer, full of fear and doubt in regard to what they may ask: Can your medicine restore a portion of the lung that disease has entirely destroyed, leaving a cavity? We answer certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary on your part, that the disease, and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle becomes absorbed, leaving perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested, at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of the part of the lungs, the inflammation leads to ulceration, and the destruction of a portion of the tissues is the result; a cavity is formed, which enlarges and so does the work of death, unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does!* As soon as the disease is arrested, the fine fur like matter is absorbed or expectorated, and nature neither furnishes the cavity with a lining membrane, or what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, true to a law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

Prices.—One box $2,00; three boxes, ordered at one time, $5,00; half dozen $14,00; one dozen or sent by express $25,00.

The postage in the United States not over 3000 miles, fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

GROVE J. STEWART'S

American & Foreign Patents.

E. P. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1837,)

76 State Street, opposite Kilby-st.

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments and all Papers for Drawings for Patents executed on liberal terms, and with despatch. Research made into American or foreign works, to determine the validity or utility of Patents for Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have the advantage for securing Patents, or ascertaining the patentability of inventions, unsurpassed by any not immediately superior to, any which can be offered them elsewhere. The testimonials below given prove that none a MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services as moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and all documents of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are hereby saved inventors.

TESTIMONIALS.

During the time I acted as the officer of Commissioner of Patents, E. P. Eddy, Esq., of Boston, did business in the Patent Office, as Solicitor, for procuring patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office—and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most efficient Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy person to take charge of putting in the application for a patent, or secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

From the present Commissioner of Patents.

Washington, August 17, 1855.

I have much pleasure in stating that I have held the office of Commissioner of Patents, Ex officio, and with the officers connected with the Office, and especially with Edward Eddy, Esq., of Boston, who has been engaged in numerous cases pending before the Office, and has conducted all of them thoroughly and successfully. I have found him an able counsellor, with whom I have had official intercourse.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE AND ALSO IN SMALL PACKAGES

E. E. DYER & CO.,

Sign of the Chinaman grinding Coffee,)

No. 8 *Broad, near State Street,.....Boston.*

Supply the best, freshest and purest articles at the *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Saleratus, Soda, &c.

Having every facility for manufacturing and preparing the several articles mentioned, the public may rely on having them *pure and genuine*, as they are put up carefully, and bear our name and label, TREMONT MILLS, E. E. DYER & CO. To give consumers some idea of our sales, we annex the following scale of prices, viz:

50c. Oolong Tea,	1,75 lb. Mocha Coffee,	30
50c. Oolong Tea,	2,00 lb. Java Coffee,	40
50c. Y. Hyson Tea,	2,50 lb. good Coffee,	50

☞ The Spices are put up in 4 and 8 lb tins, expressly for family use, and are warranted to be strictly pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our Spanish Coffee—an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in addition to pound of this coffee, it is offered at equal to 14 lbs of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark and may be relied upon as the best and most approved mixture of dandelion and coffee.

ARICA GUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, in addition to the many Grocers generally in this country, and bearing our trade mark, *Chinaman grinding coffee*, may be relied upon as the *purest article*. The proportion of gum to one half pound of coffee. The price is 10 cents per pound, and it is warranted to be the same article which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and have a high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be relied with confidence as the best suited to taste, and will be found cheap and commended as a family beverage, the price of which being nearly equal to two pounds of coffee. It is prescribed by many physicians in this vicinity, as the best substitute for coffee, for invalids, children and aged persons, as a delicious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

We could observe that all our Arica Gum has our trade mark—Chinaman Grinding Coffee—as there are many imitations of our article offered for sale in the market.

☞ *The Country Dealers* a liberal discount is made to enable them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system. We confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.
